		Cruising Range at 4000 RPM	135 Mi. Approx.
		Cruising Time at 4000 RPM	4 Hrs. Approx.
		Steering	Custom Mechanical Teleflex
		Controls	Custom Throttle and Shift Combination
		Hardware	Chrome on Brass or Stainless Steel

BEHIND THE TWO-PLUS-THREE

The Donzi Two-Plus-Three is another Donzi original, stem to stern and keel to wheel. She's a true Donzi, though, with her full share of the family's graceful lines and fiery temperament. There's an important hull change underwater: the Two-Plus-Three has the last word in new design, developed by Don Aronow, to up performance that little bit that keeps Donzis the world's finest high-performance personal boats. She's very fast, very stable and very beautiful... truly the most sophisticated speed-sport-ski boat built. Like all Donzis, the Two-Plus-

Three is high-impact fiberglass throughout, built to take punishment like the ocean racers that sired her. There is no plywood, no paint, no nails, tacks, rivets or anything else to fall apart under use, as Donzi performance in the world's roughest, toughest ocean races has proved many times. In short, she's another modern classic by Donzi... and another good reason for racing competitors to keep on calling them "those damned Donzis!"

2 + 3

In all the world there is no sportier family boat than this. She will seat five—six, if one is "totin'" size. The two forward seats swivel full circle, which makes for the perfect ski boat. The seats are Naugahyde over foam rubber... a comfortable, wipe-clean combination that can't be beat. Paramount, though, is her performance: she'll top 50, and no other five-seater 18-foot boat ever built offers such ready response, or such beautifully smooth command of any seas. After all, this is a daughter of the Donzi Dragon!
