presents the

DONZI BABY

14' Runabout

DONZI BABY

14

Fourteen feet of sophisticated playboat, the Donzi Baby lives up in every way to the international reputation established by the rest of the Donzi clan. Her hull is a half-size version of that which carried the famous Donzi 28 to more ocean racing victories than any other boat has ever brought home in a comparable length of time. And like all Donzis, she is all high-impact fiberglass, molded by the most skillful

craftsmen in the boat-building industry – it is made to take punishment you will never give it. There are no nails, tacks or rivets, no plywood, no paint . . . nothing to give trouble under use, thanks to Donzi experience in the world's toughest, roughest ocean racing competition. She's the baby of the Donzi family, but she will never ask to be pampered!

STANDARD EQUIPMENT

Power	80 HP MerCruiser Inboard/Outboard, underwater exhausts, alternator
Steering	Positive, mechanical, custom adaptor
Electrical System	12 volt, color coded
Instruments ..	Custom instruments on molded fiberglass panel
Controls	Single lever shift-throttle combination
Battery	12 volt, 65 amp-hour
Battery Bracket	Integral, racing strength
Fuel System	20-gallon custom tank, direct reading gauge, filter, shut-off; chrome on brass filler and vent
Engine Filters	Oil and air filters standard
Blower	12 volt, manual switch
Bilge Pump	12 volt submersible, automatic and manual
Running Lights	International, stainless steel, U.S.C.G. approved stern light
